# Literature Survey

| S.NO | TITLE | Authors | Abstract | Drawbacks |
|---|---|---|---|---|
| 1. | News Tracker Application | Ritu Kumari | The main objective of the project is to provide people a handy android application through which people can access all types of news and information. Through this application, any user can gain technical knowledge of the world and its surrounding with just one click ahead. User does not have to visit multiple sites for different related information. All information is going to be in one place. Many people generally get the redundancy in the information. Sometimes, people even spread fake news, which circulates and spread more like a disease of false information in Whats App and other social media. Various myths are also likely to spread as soon as possible which gives more harm than good to the people. This app while cross -checks the redundancy in the information along with the false and misleading information, which later results in panic in the people. | This application is not suitable for those who are looking for news except cybersecurity information, E-sport information, Science and Technology information . |
| 2. | News Tracker Application | Brijesh Joshi <br><br> Nehal Patel | As world's technology is rapidly growing we has fast connection and network to instantly connect to other person. Day to day use in mobile, tablets and laptop is increasing, most of the people already have this facilities. In this fast and information oriented world we need to stay updated with every incidents and news too. This News app is android mobile application where user have access to latest news from 120+ newspapers from 50+ countries. The main focus of this application is to connect news articles from all around the world and deliver it to user as fast as possible in best visualize way. | Only short news are displayed which is not applicable for a user who reads the whole content of the news |

| 3. | News Tracker Application | Carmelo Garcia | This is a simple news reader application for Android. Here the user can select the categories from which they can read the news feeds. To run the project you will need Android Studio. So before you run the project make sure that you have Android Studio on your computer. | Should update the app to its latest version instantly to get instant notifications or top news feeds etc. |
